annum, in advance; and the paper in no case continued
beyond the time for which it is paid. Subscriptions
taken for Six Months.

THE WEEKLY TRIBUNE, a very large paper,

for the Country, is published every Saturday morning, at the low price of \$2 per annum, in advance.

THE TRIBUNE.

Doings in Albany.

Correspondence of The Tribune ALBANY April 3. Since my last, some farther progress has been made in the fight on Col. Young's manifesto .--Several votes were taken yesterday, but none indicative of the final result Gen. Root's resolution was voted down, and so was Senator Sherwood's. The Senate have at last got back to Mr. Fosten's original proposition, which I think will primately receive the united votes of the Whigs and Conservatives. There was some fine sparring on this question yesterday. Mr. PORTER, who acts as Lieutenant of the Corps of Barnburners, was very severe on Senator FOSTER for his pertinacity in pressing through the Senate these resolutions of ceasure against Col. Young. He warned him to desist, for if he did not, and this resolution should pass, it would be but the beginning of a series of acts, which would result, not precisely as Mr. Foster would wish !-Mr. Foster in return, complimented the Senator upon his amiability. Having discharged himself of so much bile, he trusted it would be beneficial to his heath and temper. Fester however very significantly told PORTER that he did not choose to follow his lead, or to permit him to read others cut of the political church. He preferred to choose some older, abler and better tried soldier in the Democratic ranks! This hit told. Por-TER, in old times, when Democracy and Federalism meant something, was a prominent orator in defence of the peculiar Democratic principles of the Washington Benevolent Society! After a few more love passages between members of the party, the whole subject was again hung up to dry.

the Argus this morning, has raised quite a breeze. The Lt. GOVERNOR will be forthcoming at the first opportunity. He wields a strong and polished pen, and though the Secretary can dip his pen very deep in the bottle of gall and bitterness, I think the result will prove that he will get a Rowland for every Oliver which he launches at As an offset to this attack upon the Secretary,

the Barn-burners have got up a bill cutting down the fees of the Honorable EDWIN CROSWELL, State Printer, so as to make his office good for nothing. This movement is viewed by the Conservatives with a holy horror. Should the bill pass, it will starve out CROSWELL nolens volens. The Whigs have the casting vote in this matter, and hence the altered tone of the Argus of late toward the Whig Senators. Unless the bill is strangled is the Senate, it will go through the Assembly

The Senate have had two days' talk on the Retrenchment and Reform bills. It is all humbug. Amendments without number are offered in order to stave off a direct vote. "Retreachment" from a Loco-Foco Legislature will be as great an anomaly as the truth from the Father of Lies. The Assembly, not to be outdone in the race of humbug, have got two bills before them, of which I send you copies. If any of these bills finally pass, set me down as false a prophet as Father Miller.

There has been some hard fighting in Executive session lately; rumor says-for all is secret as yet -that the division of "Conservatives" and "Barnburners" crept into that hitherto unviolated sanctuary. Some nominations for Jefferson County raised the question, and all not being able to pronounce "Shibboleth" correctly, the nominations have been rejected! Stick a pin there.

The bills to reorganize the Courts of Common Pleas, and relative to your New-York Pilots, have passed the Assembly and are new before the Senate. Of their probable success, I cannot speak.

You will have seen the new Bank project presented to the Assembly yesterday by WILLIS HALL. It meets with general favor except from the Pig-ringers, who will be satisfied with nothing less than an entire rooting out of every thing that has about it the ominous letters of B-A-N-K! I have however little doubt but what all these Bank Reform projects will be consigned to the tomb of the Capulets.

The present prospects are that the compulsory feature of the Inspection Laws will be abolished. Mr. FRANKLIN has introduced a bill for that purpose, and a majority of the Senate are in favor of such a bill. So far as now appears, the Assembly are unanimous on that point. Cel. Young's report on merchandize, which I sent you the other w, has done the work. Unless a most powerful lowy frace is brought to bear, from your city, I thing the Inspection business will go up Salt River witha rush.

The Bank Commissioners' bill yet sleeps in the handsef the Bank Committee. How long it will be suffered to remain there, remains to be seen.

There was a beautiful scene in the House this morning between two of your peculiarly beautiful representatives, McMurray and White. The fur flew finely, and it was amusing to hear these scions of Tammany Hall talk about their respective popularity among their constituency!— The beauty of the joke is, that probably not a hundred of your citizens ever heard of eiteer of these modern Solons, until they were nominated for office. The fight was got up on the bill to make some additional inspectors of flour in your city .-Tragedy, comedy and farce, were gone through with, with great eclat. The execution was proportionate to the weight of metal employed. Popguas are not dangerous weapons, even when pup-

There is a bill now before the Senate, " To whip the Devil round the Stump." The Constitution limits the rate of Tolls on Salt, Lead, Coal, &c. at certain fixed rates. Well: certain persons wish to get the Tolls reduced, and how is it to be done? Not directly, for that is unconstitutional! Not by allowing drawbacks-or charging six cents and giving back three, for that has also been pronounced to be unconstitutional by our present sapient Canal Board! Here you might suppose the old gentleman was in the corner! But nohere is a bill to give bounties on those articles that is, the whole amount of tolls is to be paid into the Canal Fund, and then a bounty, equal to three-fourths of the Tolls, is to be paid back out of the General Fund! And this is constitutional!

Have I not given a proper name to the bill? The bill to Gerrymander your City was up in the Assembly to day, but laid by, after a shot from 'Old ENOCH.' It cannot pass, as present appearances

Social Science.

[From the Friends of Association.! THE PAMPHLET UPON ASSOCIATION is now for sale at The Tribune Publication Office. Ten Copies for \$1, and for a larger number orders will be filled at the rate of \$8 per hundred. Single copies 12} cents. We would correct an error into which we were led by being misinformed in regard to the Postage; we stated it to be 30 cents per copy, but now find that 12] cents is all that can properly be charged over 100 miles—less for under. Our friends at a distance can supply themselves conveniently through merchants who are now visiting New York are now visiting New-York.

The fellowing chapter from the pamphlet upon Association, just published, touches upon a subject which we believe we have never before noticed in

Cities in the Combined Order.

We have shown that Universal Association is contemplated by its advocates, and that the reform which will lead to it can be effected peacefully and gradually, without injury to any class or any interest in society. The universal establishment of this new Social Order renders it necessary that Cities should be provided for; the doctrine of Association would be incomplete and imperfect, if it did | ket street. not provide for universal and collective arrangements in Society, as well as for the details and minute arrangements of a single Association. Cities are necessary parts of the social machine; and we will briefly glance at their construction and arrangement in the Combined Order, for they must differ materially and widely from Cities of the present social order.

The contrast between the Cities of the Combined Order and the Cities of existing society, will be as striking and as brilliant as the contrast between the comforts and splendors of an Association or combined household, and the inconveniences, monotony and dulness of the single or isolated house-What is the general character of a City in civilized Society?-and what will it be in the Combined Order? A brief answer to these questions may convey to the reader an idea of the difference between them.

A City at present is a heterogeneous mass of small and separate houses of all sizes, shapes, calors, styles and materials, which are crowded together without regard to architectural unity or design, convenience or elegance; it is cut up with Col. Young's first appearance in the columns of irregular and narrow streets, dark lanes, confined courts, and cramped yards and alleys; it has its dirty and muddy streets, that annoy the inhabitants; its filthy gutters, that fill the atmosphere with noxious exhalations which are injurious to health; and presents a scene of confusion, incoherence, waste and disorder.

A City of civilized Society is a vast and crowded receptacle of human beings not connected with each other in friendly union and orderly association, but huddled together in conflicting and antationistic aggregation. It is, for the most part, a sink of poverty, and with its isolated dwellings, the hiding place of a thousand vices and crimes. All that our civilized Cities can boast of in regard to riches and splendor, intelligence, refinement and enjoyment, serves but to render the poverty, the ignorance, the degradation and suffering, which abounds in them, more hideous and painfully dis-

The cities and capitals of Association must contrast most powerfully with those of civilized Society, and they will do so. A City in the Combined Order will be a Group of magnificent Associations, disposed with order and unity of design, surrounded by noble and extensive gardens and grounds, for the recreation and healthy occupation of the inhabitants, in which all the beauties of nature and the perfections of art will be combined and united to charm and delight.

For every twelve Associations there will be one Association which will be the Capital or head of the twelve, corresponding in some degree to the county town of a county. It will be the administrative centre of the Associated County, and at it will be held the periodical exhibitions of Industry, Art and Science, public celebrations, etc.

A District of country comprising several Associated Counties, or about one hundred and fifty Associations, will have a larger Capital, formed of a Group of Associations, as above described.

A State composed of Associated Districts, will have a larger Capital, formed of a Series of Associations, or of a number of single Associations arranged in Serial order. Nations and Continents will have, likewise, their Capitals, which will be embellished and adorned with all the resources of creative Art and Industry, and the magnificence of which can only be conceived when we consider the wealth and power of Nations in Universal Association, and the collective pride and interest which they will take in all grand unitary arrangements.

The science of Association teaches us the Unity of the Human Race, and that this unity requires universal unitary arrangements-political, social and religious-corresponding to their political, social and religious Unity, with grand central Metropolises for the regulation and government of the affairs relating to these Unities. Thus the Cities of the Combined Order will be great Centres-administrative, scientific, industrial, artistic and reigious-each for the region over which it presides. There, the Legislative Bodies and great Councils of Industry, Art and Science, and the great annual industrial, artistic and scientific exhibitions will be held; and there also will be located the grand galleries of Art, the scientific collections, the libraries, universities, etc. upon a scale much more ex tensive and magnificent than those of single Asso-

The Cities in the Combined Order will be centres of collective Knowledge, which they will draw and collect in fragments from all parts of the world, and again communicate it to every Association, each to those of the region over which it presides so that every new improvement, invention or discovery made of value to Mankind, may become at once universally known and available.

Hends of Hair.—A. C. BARRY, Artist in Hair, from London.—The importance which all ages have to the head of hair is a clear index of the value set upon personal figure, and when, by some capricious irrak of Nature, the human form is deprived of its fair proportion, art is resorted to, in order, by artificial means, to supply the deficiency.—Hence have arisen those wonderful discoverles which bid Nature defiance. Barry's Ventilating and Gossamer Wigs and Scalps still stand pre eminent above all others. Their peculiar light, gossamer, and ventilating character, their being shaped exactly as the hair grows; their elasticity and their superior material and workmanstip, as well as their style of finish and arrangement, all combine to form such sperfect heads of bair, that they must be seen to be fully appreciated. An inspection of Barry's real heads of hair will satisfy the most fastidious that they are the best and cheapest in the city, which can only be had at 146 Broadway, corner of Liberty-street, up stairs.

**PRESCON OF TRANSPORT Heads of Hair .- A. C. BARRY, Artist in Hair,

FELLOW CITIZENS:

WE
are bound to
believe it, from the very
circumstance, that all who take
Du. SWAYNE's Compound Syrap of Wild
Cherry, do say, that it far excels all other Medicines, for Conghs, Colds, Spitting Blood, tickling
or rising sensation in the threat, bronchitis,
Whooping Cough, Asthma, weakness of
the nervous system, or impaired
constitution, from any cause,
and to prevent persons and to prevent persons
from falling into a

Decline, this me-

dicine has no equal.

He would like a chance to perfect his knowledge of Power He would like a chance to perfect his knowledge of Power Presswork. Address W. Allen, in care of H. Greeley, Tribane office. NEW-YORK, FRIDAY MORNING, APRIL 7, 1843.

To The Liver.—The more we contemplate the structure of this organ, its magnitude compared with others, its singular circulation and the vast quantity of blood which passes through it, the more we must be satisfied that it was intended to be satisfied that it was passes through it, the more we must be satisfied that it was intended as a leading operation in the functions of life; any considerable interruption or irregularity of that operation must be attended with the most serious and fatal conse-quences; and even every lesser deviation from its natural state must be fell upon or the in resolution of consequences. state must be left more or less in production of general de rangement and disorder of the system of which it forms so rangement and disorder of the system of which the tribute principal a part. After deep reflection on the subject, and the trial of numerous experiments to consteract the diseases

the trial of numerous experiments to construct the diseases of the liver in all their peculiarities, the proprietor of Starkweather's Hepatic Elixir has succeeded in forming a preparation which experience proves to be admirably adapted to their cure, and its success has been truly astenishing.—

Hundreds have been cured by its timely application, and others are now experiencing such relief from suffering as they had never anticipated—solely by the use of Dr. Starkweather's Hepatic Elixir.

This may certify that for twenty-five years I was afflicted with pain in my side, which was frequently so severe as to entirely incapacitate me for labor. I have been under the care and treatment of various physicians, without any permanent benefit. Hearing of the many cures effected by the Hepatic Elixir prepared by Dr. Starkweather, I was induced to give it a trial, and am happy to say that it has entirely removed my complaint. I have felt no symptoms of it for more than a year past.

Northerings, March 30, 1841.

LT War! War! War!-The Wig makers have declared hostilities against our neighbor. Dr. Jayne, on account of his Hair Tonic, which is knocking all their business into a "cocked inst" Ladies and gentlemen, old and ness into a "cocked hat." Ladies and gentlemen, oid and young are flocking to the Doctor's standard. Heads long divested of even the first radiments of hair, after using his Hair Tonic soon appear with new and flowing locks, which Absalom himself might have envied. Beardless boys are seen with large and bushy whiskers, and ladies smile again through their own raven ringlets more beautiful and bewitching than ever. Baldbeads are doffing their wigs and throwing them to the "moles and bats," while the wig makers stand aglasst as they behold the demolition of their business.

What will be the consequence of this war we know not, What will be the consequence of this war we know not, as the wiggies are outrageous, and the Doctor remains firm and declares that 'some things can be done as well others,' and that bald heads may as well wear their own hair as the inair of other people. [Weekly Messenger. Prepared only by Dr. D. JAYNE 205 Broadway, New-York, and 20 South Third street, Philadelphia. Price \$1 per hottle. a5 Itis 2tos

and will be sold, with or without boilers, low and on accommos/ating terms, to close a concern, by applying taa6 in WM. SNEDIKER, 123 and 125 Attorney-st.

SANDS'S SARSAPARILLA.

Improvement in whatever regards the happiness and we are of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle and our ad miration glow at the ingentity, the near approach to the standard of perfection, of the present time! Through the elaborate investigations of ! hysiology, or the science of LIFE, and the Pathology of prevalent diseases, much valua-ble practical knowledge has been gained. In consequence \$3.500 WANTED, on bond and productive property near this city, worth treble that sum. Particulars most ample and satisfactory in every respect, may be learned by applying to EDWARDS & FAYER-WEATHER, 41 Liberty-st.

Solve practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbific matter, the cause of discase, and substitute healthy action in its place.

The heartiful simplicity of this mode of the space. The beautiful simplicity of this mode of treatment is not ful to the sufferer, but perfectly in consonance with the oper-ations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is thus that SANDs's SARSAPARILLA, a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedenied success in the restoration to health of those who had long pined under the most distressing chronic maladies, has gives it an exalted character, farnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this-one that would act on toe liver, stomach and bowels with all the precision and petency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system The attention of the reader is respectfully called to the

heretofore been made by the use of this invaluable medicine yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saying it is a source of constant satisfaction that they are made the means of relieving such an amount of satisfacting.

NEWARK, N. J. Dec. 13, 1842.

Mesers. Sands: Gent—Words cannot express the gratitude I feel for your treatment to me, a stranger suffering under one of the most loathsome diseases that na ure is capable of bearing. The disease with which I was afflicted commenced with inflammation of the eyes, in the year 1836, which caused almost total blindness. For this I was treated and finally relieved, but the remedies were such as to cause the developement of a scrotulous affection on my left arm near the elbow.

"The pain extended from the shoulder to the end of my

mear the eibow.

"The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were keyond discription, I tried various remedies and consulted different physicians in New-York and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by the large quantity of mercury taken to cure the inflamma

tion of my eyes.

My sufferings continued, the arm enlarged, tu mours formed in different places, and in a few months discharged. making ten running ulcers at one time, some above and some below the elbow, and the discharge was so offensive as I was unwilling to consent to it he recommended me to use Swaim's Panacea freely, which I did without deriving but little benefit. "For three years I was unable to raise my hand to my head or comb my hair, and the scrofula now my hand to my head or comb my hair, and the scrofula now made its appearance on my head, destroying the bone is different places, causing extensive ulcerations, and I feared it might reach and destroy the brain—the head swelled very much, accompanied with violent pain, numerous externa remedies were recommended, but they did no good.—About a year since I was taken severely ill with a swelling of the body from head to foot, so that I was entirely helpless, the Doctor advised me to go to the Hospital, for he did not understand my case; for the last few months I had been afflicted with a severe pain in both sides, at times so hard I could scarcely get my breath. A hacking cough constantly annoyed me, and this combined with my other maladies, rendered me truly miserable. Such, gentlemen, had been my situation for seven years of my life when I commenced the use of your Sarsaparilla, but as my case was considered flesh formed, and I once more left within me that I might get well. I have now used the Sarsaparilla about two months and am like a different being. The arm that was to be miputated has entirely healed, a thing that seemed impossible. I can scarcely believe the evidence of my own eyes, but such is the fact; and it is now as useful as at any period of my life, and my general health is better than it has been for years past.

period of my life, and my general health is better than it basbeen for years past.

Health; what magic in the word! how many thousands have sought it in toreign lands and sunny climes, and have sought in vain! Yet it came to me when I had given up to die, and as I feel the pulsations of health coursing through my veins, my whole heart and soul go forth in fervent gratitude to the author of all our sure mercies, that he as been graciously pleased to bless the means made use of. "Truly have you proved yourself the good Samaritan to the afflicted, for next to may Creator my lite is indebted to you (or rather) the use of your invaluable Sarsaparilla. The value of such a medicine is countless beyond parilla. The value of such a medicine is countless beyond price, money cannot pay for it. I have been raised from death, I may say, for my friends and myself thought it impossible I could recover. And now gentlemen suffer me to add another proof certified too by my friends and guardians as a just acknowledgement of the virtues of your health restoring Sarsaparilla. That the afflicted may also use it and enjoy the benefits it alone can confer, is the heartfelt, fervent wish of their and your friend.

MARTHA CONLIN.

MARTHA CONLIN.

I know Martha Conlin and believe what she states in this document to be perfectly true. JOHN POWER,
VICAR GENERAL OF NEW-YORK,
Rector of St. Peter's Church.
Given at New York this 14th day of December, 1842.

I know Martha Conlin, and have known of her suffering liness. | JOHN DUBOIS, Bishop of New-York. I place full confidence in the statement made by Martha

Conlin, having known her the past twenty years. I will cheerfully give any particulars in relation to her case to these who may wish further information.

Sr. ELECABETH. Superior of the Roman Catholic Orphan Asylum, Prince street, N. Y. Dec. 14, 1842.

I have confidence in the representations made by Martha Conlin, and have full knowledge of her case. ELLIAH F. PURDY, Alderman 10th Ward of the City of New-Yerk.

Martha Conlin has lived in my family the last 13 years, and I hereby certify the foregoing statement made by hereif is correct.

Mrs. MARY B. LLOYD,
No. 604 Broad st. Newark, N.J. self is correct.

Sands's Sarsaparilla will also remove and permanently cure diseases having their origin in an impure state of the blood and deprawed condition of the general constitution, viz: Scrotula or King's Evil, in its various forms; Rheuma-

viz: Scrotula or King's Evil, in its various forms: Rheumatism, obstinate cutaneous Eruptions, Blotches, Biles, Pimples or Pustules on the face, chronic Sore Eyes, Ringworm or Tetter, Scald Head, enlargement and pain of the bones and Joints, stubboru Ulcers, syphilltic symptoms, diseases arising from an injudicious use of Mercury, temale derangements, and other similar complaints.

Prepared and sold at wholesale and retail, and for exportation, by A. B. Sands & Co. No. 273 Broadway, (Granite Buildings,) corner of Chambers street, New York, Also sold by A. B. & D. Sands, Druggists, No. 79 and 100 Fulion st.; David Sands & Co. No. 77 East Broadway, corner of Market-street; and by Druggists generally throughout the United States. Price \$1 per bottle, six bottne for \$5.

THE PORTCHESTER INSTITUTES—
YOUNG LADIES' AND GENTLEMEN'S BOARDING
SCHOOLS, Portchester, Westchester County, N. Y.
These two seats of learning, signated one-fourth of a mile apart, have been recently united for purposes of mutual convenience. Both Institutes are under the joint turesage and government of the following Officers:
Principals in the Young Gentleman's Institute:
Rev. Calkin Dow, B. A., Teacher of Latin, Greek, Mathematics, and Moral Science.
C. Markellers Dow, Vice Principal. Teacher of Natural

natics, and Moral Science.
C. Marcklus Dow, Vice Principal, Teacher of Natural Science, Writing and Drawing.
In the Young Ladies' Institute:
EDWARD D. Dow, Teacher of Latin, Grock, Mathematics and Moral Science.

ld Moral Science. SUSANNA L. H. Dow, Teacher of Natural Science, and Mu-SUSANNA L. H. Dow, Teacher of Natural Science, and one on the Plane,
Susan L. Lang, Vice Principal, Teacher of French, Spansh, Italian, and Vocal Music.
The two Institutes are very pleasantly located standing onstined eminences, one mile from Long Island Sound—commanding a lovely prospect of the water, and of a great variety
of this hydrological converse.

manding a lovely prospect of the water, and of a great variety of delightful accesery.

The School-year is divided into two terms of 22 weeks each. The first term commences on the first Wednesday in May; and the second on the first Wednesday in November.

Express.—In the Young Gentlemen's Institute \$160 per year; or \$74 per term. In the Young Ladies' Institute \$160 per year; or \$50 per term.

The Examinations and Exhibitions are public. The Examinations are semi-annual; the Exhitions are annual. On these occasions gold and silver medias are awarded to one from each of the Classes or Divisions, in the two Institutes, acquirting him or herself most creditably.

Great attention is paid to the health and habits of the pupils; to propriety of deportment and politimess. In each of the Institutes, the Principals, Touchers and pupils constitute one-family.

stitutes, the Principals, Touchers and pupils constitute onefamily.

Portchester has daily intercourse with New-York by Stages
and Steamboat. Distance, 27 miles.

N. B. Oue of the Principals may be seen from April 10 toMay 3 at 101 East Broadway, or at private dwellings by leaving
a card with the name and number of the street upon it.

TO THE PUBLIC -Whereas my name has been published to the world as being cured by SANDS'S SARSAPARILLA, and whereas the statement as published by Mr. Sands is not my statement, but one on is own, and entirely different from the one he obtained from me, I feel it my duty to state in a plain manner how the statement of my case by Mr. Sands was brought before the public; also, to state by what means so great a cure as mine was effected. I was taken sack in September, 1841, with that afflicting disease, Scrofula. I was attended by medical gentlemen, who treated my case in the usual way with various preparations of mercury, until my system was filled with it, and Chronic Rheumatism in its most aggravated form set in. I then had recourse to various remedies recommended by physicians and others, but with little or no benefit to me in effecting a cure. In this situation, I commenced using Mr. Sands's Sarsaparilla in August 1542. I had taken five bottles of it, the operation of which was

came benumbed and stupified, leaving me cold and my flesh deprived of all natural feeling. In this condition I was en-abled to leave my bed and go out. This change, although anomentary, was very pleasing to me, and Mr. Sands immediately applied to me for a certificate of cure, which I declined giving, as I did not consider myself cured; but Mr. Sands continued his applications to me for a certificate, and would give me no rest until I gave him one about one-quatter or one-third the length of the one published by him, the whole of which I did not then understand fully, not being myself in feeting, for although my mains were greatly bemyself in feeling, for although my pains were greatly be-numbed. I was still suffering much from my afflictions at times. A tera few days this numbness left me, and my dis-tress became more severe than before, and, if possible, I was worse than ever I had been. I was again confined to the use of your Sarsaparills, but as my case was considered hopeless, and the near prospect of a speedy dissolution seemed inevitable, I left but little encouragement to persevere. The persuasion of friends induced the to try your medicine, which in a few days produced a great change in my system generally, by causing an appetite, relieving the pains, and giving me strength; as success inspires confidence, I was encouraged to persevere, my pains grew easier, my strength returned, food relished, the ulcers healed, new flesh formed, and I once more felt within me that I might get with I have now used the Sarsaparilla I had done me no good whatever. My friend then get well. I have now used the Sarsaparilla shout the state of it. I determined not to use any sore of it. as it had done me no good whatever. My friend then get well the state of the sarsaparilla in the state of it. I determined not to use any sore of it. as it had done me no good whatever. My friend then get well the sarsaparilla in the sarsaparilla in the same of it. I determined not to use any sore of it. as it had done me no good whatever. My friend then get well the same of it. I determined not to use any sore of it. as it had done me no good whatever. failing under the use of it, I determined not to use fast failing under the use of it, I determined not to use any more of it, at it had done me no good whatever. My friend then stated that if I was determined not to use Sands's article any more, he would give me a preparation of Saraparilla that he knew would cure me. I then inquired what it was; he told me it was BRISTOL'S SARSAPARILLA. I then the same of the great the great the great the same of the great the same of the great the great the great the same of the great the same of the great the gre remembered hearing of BRISTOL before, and of the great cures it had performed. I then said I would be glad to have it. My friend stated that he did not wish to interfere with Mr. Sandsia any way whatever; but as I had previous to this determined not to use any more of Mr. Sands's article, my friend—furnished me with a bottle of Bristol's Sarsparilla; this was about the third week in September, 1843. I continued the use of it until I was satisfied it had produced a thorough cure in me, and now I am able to per-form as much labor in a day as I ever did in many years. I am free from Scrofula, Rheumatism, as also a most affici-ing complaint, the Piles, with which I was long afflicted, and a severe cough of eight years' standing. I, therefore, declare to the world, and in the presence of Him, who shall judge the world, that my cure, great as it has been, was effected by Bristol's Sarsaparilla alone, under the blessings of God, and not by Sanda's Sarsaparilla, as has been published. The statement with the Rev. Mr. Van Duzen's name at the statement with the Rev. Mr. van Jozen's name attached to it as being conversant with my case, is not true; that gentleman never saw the article published until he saw it in print with his name attached to the same. Also the name of Mr. Brown was used without his consent; also Mr. Purdy and others; the whole statement was untrue, having never received the sanction of the persons whose names are attached to the same as published by Mr. Sands relative to me. I make this statement without the knowledge of Mr. Bristol or his agents, or from any request from them. I do it because I believe it to be my doty. I therefore cheerfully it because I believe it to be my doty. I therefore cheerfully state what is true, neither courting the favors nor fearing the frowns of any; and in doing this, I do no more than what justice demands of me. But for me to attempt to give Bristol's Sarsaparilla the praise it deserves, would be something more than I could accomplish. I conclude by stying, that if any one desires to know more of Bristol's Sarsaparilla, I will be pleased, at any time, to give all the information I am able at my residence, No. 43 Anthony street, New York.

THOMAS TURNER.

BRISTOL'S SARSAPARILLA VERSUS SANDS'S SARSAPARILLA.—This article, which has wrought and signal cures within the State and City of New York, has brought from A. B. & D. Sands the following certificate of

brought from A. B. & D. Sands the following certificate of its superior efficacy, of its unequaled virtues in eradicating all diseases for which it is sold:

NEW-YORK, April 20, 1342.

MR. C. C. Bristot, Buffalo, N. Y.

Dear Sir—We have been selling during the year past coasiderable quantities of your Extract of Sarsaparilla, and think from the account we hear of its virtues from those who have used it, that the sale in this city may be much increased by paying it more attention in advertising. Our accessed by paying it more attention in advertising.

reased by paying it more attention in advertising. angements are such with the different papers that we can have advertisements inserted on much better terms than most others pay, and more conspicuously. If you would like to make an arrangement with us for seiling it more extensively, we think it could be made of advantage to us both. We have now four different stores, three of them in the heat locations in this city for retailing, and one for wholesaling, and our facilities are such as will enable us to dispose of more of it, perhaps, than any other house. We shall be much pleased to hear from you on this subject, or, if you visit New York in the course of a month or so, to see you at

our store, 79 Fulton street.
Yours, very respectfully,
A. B. & D. SANDS.
City Agents for the sale of Bristol's Sarsaparilla. WILLIAM BURGER, wholesale agent, 50 Courtlandt-WILLIAM BURGER, wholesale agent, 50 Courdandts, and 183 Greenwich st; and at retail at the following places: Milhau's Pharmacy, 183 Broadway; Rushton & Aspinwall, 110 Broadway, 26 William st and 10 Astor Heuse; James Syme, M. D. 63 Bowery, and John Syme, 30 Fulco, cor. Water-st; Robert Leggett, M. D. 17 Aveaue D; B. Quackenbush, 709 Greenwich-st; A. Hill, 297 Greenwich-st; J. & J. Coddington, corner of Spring and Hedson-streets; D. H. Burtnett, Third avenue, corner of Eighth street; Philip Merkle, 323 Grand-fireet; Daniel B. Tucker, 300 Grand-street; E. H. Tripp, 167 Division-st, and 211 Fulton-st; and at 250 Bowery.

st.; and at 250 Bowery.

Persons residing in Brooklyn, L. L. are respectfully requested to call on Mr. L. G. Reed, 149 Fulton st. who will be pleased to give a statement of facis in relation to the of Bristel's Sarsaparilla in his samily.

NOTICE.—Persons taking the Croton Water whose contracts expire on the lat day of May next and who inteped that the supply shall be discontinued after that day are informed that notice of such intention must be given in writing at the office of the Croton Aqueduct Board, in or before the first of April next, or that the rent will be chargeable for the ensuing year. Contracts for the use of the Water to the first of May, 1844, will be made or reserved on application at the office, the rent to be paid in advance.

after it becomes payable, the law of the Corporation of New-York requires that the supply shall cease. Water tenants are reminded that by the terms of their ap-plications the supplying of other families or persons is forbidden under the penalty of a forfeiture of their payments and the stoppage of the supply. By order.

A. B. BIGELOW, Register.

Office of the Croton Aqueduct Board, March 22d, 1843.
